

Congratulations on completing your RMT diploma!

You are so excited to be joining the RMT family, yet you are also facing a somewhat daunting list of essential questions about your next steps. We understand. There seem to be so many options to consider when choosing a place to begin your practice. You want to make the right choice to find the best fit for your values, your preferred lifestyle, and your career ambitions. We can help.

We recognize that each graduate has a set of goals and priorities that is unique to them. So, we offer two attractive options – as a salaried employee or as an independent contractor. You are not ‘locked in’ but can choose the suitable model for you, for right now. And then you can always make a change later.

- If you are looking for a stable, predictable income, then the salary plus benefits model may be best for you. We can offer you an attractive salary, paid vacation, extended health benefits (including dental and eye care), paid CMTO insurance fees, and continuing education reimbursement for your ongoing professional development.
- If you always wanted to be your own boss, then the independent contractor model is likely a better fit. We can offer you an excellent client revenue split, which grows along with you as your practice grows. We offer a ‘50-50’ matching program to our contractors to assist them with their ongoing professional development.

Regardless of the compensation you choose, you will be in an outstanding team care environment at our clinic. From Day One, you and your practice will benefit from our online booking & charting systems.

Our uber-friendly front desk admin services team will courteously support you and your clients. Our clinic facilities are bright, modern and provides well-equipped treatment rooms allowing you to concentrate on your client care. We have everything you need to grow your practice. Located in the heart of Barrhaven, our clinic is a welcoming, family-friendly community that is 20 minutes by rapid transit from downtown Ottawa. We have been in business since 2001 and have earned a solid reputation for our focus on client care.

We hope to see you hang your diploma on our wall and our other practitioners, very soon!
